Art Unit: 2881

Duty to disclose information statement filed on 11-26-2001 is improper. It must state that "information material to the patentability of the application under 1.56."

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1-46 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Applicant has suggested an interference pursuant to 37 CFR 41.202(a) in a communication filed on 04-17-2001.

Since, the Rules 1.607 and 1.608 have been abolished and replaced by 37 CFR 41. +. Therefore, it is requested that in response to the office action, applicant submits the information as required under 37 CFR 41.202(a)(1) through (a)(6).

Therefore, claims 41-46 have been not readily considered to be an interference with U.S. Patent No. 6,050,218 to Chen et al. for the reasons above.

Claims 1-40 are allowed.

Reasons for indicating allowable subject matter

The prior art fails to disclose a plasma doping apparatus and/or method having a Faraday cup positioned adjacent to a platen for collecting a sample of positive ions accelerated across a plasma sheath as recited in claims 1, 19, 28 and 36.
